

## PROMO Bundle: Siemens Solid Edge Classic + Zel X Advance

Само до 30 септември 2024, ползвайте **PROMO Bundle** лиценз,  
за една година на цена 4 850 EUR!

Solid Edge Classic функционалност	Zel X Advance функционалност
<ul style="list-style-type: none"><li>✓ 2D drafting</li><li>✓ Data import and reuse</li><li>✓ Advanced 3D part design</li><li>✓ Advanced 3D assembly design</li><li>✓ Synchronous technology</li><li>✓ Model Based Definition (MBD) preparation</li><li>✓ Sheet metal design</li><li>✓ Design for cost</li><li>✓ Frame &amp; weldment design</li><li>✓ Surface modeling</li><li>✓ Plastic part design</li><li>✓ Jig &amp; fixture design</li><li>✓ Conceptual assembly layout</li><li>✓ Cam design</li><li>✓ Gear design</li><li>✓ Pulley &amp; shaft design</li><li>✓ Spring Design</li><li>✓ Beam &amp; column design</li><li>✓ Automated 2D drawings</li><li>✓ Standard parts library (includes machinery content)</li><li>✓ Animation</li><li>✓ Advanced photorealistic rendering</li><li>✓ IFC import &amp; export for Building Information Modeling (BIM)</li><li>✓ Mesh data reuse (Convergent Modeling)</li><li>✓ Reverse engineering (3D scanning)</li><li>✓ 3D print preparation and service</li><li>✓ Generative design</li><li>✓ SolidWorks data migration</li><li>✓ Inventor data migration</li><li>✓ Pro/Engineer / Creo data migration</li><li>✓ Basic motion simulation</li><li>✓ Basic stress and vibration simulation</li><li>✓ Data management</li></ul>	<p><b>Създавате голямо разнообразие от типове продукти и изберате от различни подходи за моделиране:</b></p> <ul style="list-style-type: none"><li>✓ Multi-CAD open</li><li>✓ Ability to open files in NX</li><li>✓ Direct multi-body modeling with shape library</li><li>✓ Automated 2D drawings</li><li>✓ Sketching</li><li>✓ History-based part modeling</li><li>✓ Sheet metal modeling with DXF export</li><li>✓ Assembly modeling</li><li>✓ Catalog parts library</li><li>✓ Parts list</li></ul> <p><b>Планирате, изпълнявате, проследявате и комуникирате задачите в производството:</b></p> <ul style="list-style-type: none"><li>✓ Project/job dashboard</li><li>✓ Template-based shop floor planning</li><li>✓ Mobile instructions with traveler notification</li><li>✓ Live manufacturing status for customers</li><li>✓ NC code editing</li><li>✓ Outbound Request for Quote (RFQ) automation</li></ul> <p><b>Управлявате и си сътрудничете върху данните за продукта по-ефективно:</b></p> <ul style="list-style-type: none"><li>✓ Online project storage</li><li>✓ Any device view &amp; markup</li><li>✓ Project sharing with task board</li><li>✓ Augmented Reality (AR) visualization</li><li>✓ Part numbering &amp; revisioning</li><li>✓ Where-used indication</li><li>✓ Lifecycle status</li></ul> <p><b>Тествате и валидирате дизайнни, преди да бъдат физически произведени:</b></p> <ul style="list-style-type: none"><li>✓ Stress &amp; displacement simulation</li><li>✓ Fixed, pinned and slider constraints</li><li>✓ Force, bearing and pressure loads</li><li>✓ Cloud-powered voxel compute with auto-update</li><li>✓ Ability to open in NX and Simcenter 3D</li></ul> <p><b>Прекарвате по-малко време в програмиране и повече време в обработка:</b></p> <ul style="list-style-type: none"><li>✓ 2.5 axis CAM G-code automation</li><li>✓ Post-processor controller selection</li><li>✓ Custom machine tool creation</li><li>✓ Facing, pocketing, contouring, slotting, drilling</li><li>✓ Toolpath simulation</li><li>✓ Ability to open in NX CAM</li></ul>
